

18th Congress of the European Society for Agronomy

Tuesday, August 27, 2024

Modeling N & soil - Les Horizons (2nd floor) (4:40 PM - 6:25 PM)

-Conveners: Jeremy Whish; Icíar Giménez de Azcárate Bordóns

time	[id] title	presenter
4:40 PM	[78] Does the application of nitrogen fertilizers on the crop sowing row change the crop-weed competition in low-herbicide cropping systems?	Dr MOREAU, Delphine
4:55 PM	[84] Using low-cost NIRS method for helping smallholder to detect nutritional deficiencies and imbalances	Mr AVIT, Valentin
5:10 PM	[91] A crop forecast-based approach for in-season nitrogen application in winter wheat	PALKA, Marlene
5:25 PM	[92] Developing a model to simulate carbon cycling and water competition in vineyard	LEOLINI, Luisa
5:40 PM	[300] Sensitivity of nitrogen leaching reduction by winter cover crops to management interventions at landscape scale	Dr ZHANG, Jingjing
5:55 PM	[303] Predicting plant available water holding capacity of soils from crop yield	WANG, Enli
