

# 18th Congress of the European Society for Agronomy

## Wednesday, August 28, 2024

### **Intercropping - Les Horizons (2nd floor) (9:35 AM - 10:50 AM)**

-Conveners: **Jingjing Zhang; Treier Simon**

time	[id] title	presenter
9:35 AM	[87] Exploring the potential of wheat-soybean intercropping as a climate change adaptation in crop production	YU, Jing
9:50 AM	[159] Ability of the STICS soil-crop model for simulating performances and inter-specific interactions in tropical cereal-legume intercropping	DE FREITAS, Mathilde
10:05 AM	[234] Understanding and designing spring wheat/faba bean intercropping systems by virtually testing cultivar traits and management options	DEMIE, Dereje T.
10:20 AM	[276] Developing Hi-sAFe-machine learning hybrid approach as a field-specific decision support system for agroforestry systems	Dr KHEIR, Ahmed Prof. FEIKE, Til
10:35 AM	[289] Modelling the spatial distribution of light capture in strip intercrops	Dr WANG, Zishen
