

18th Congress of the European Society for Agronomy

Friday, August 30, 2024

Climate change adaptation and mitigation - Salle 14 (1st floor) (9:00 AM - 10:30 AM)

-Conveners: Audrey Alignier; Marlene Palka

time	[id] title	presenter
9:00 AM	[153] Simulating interactions between farms: adaptive network of biomass flow and individual behaviors	Mr PETER, Aurélien
9:15 AM	[160] Using soil-crop models to investigate the impacts of contrasted livestock integration into cropping systems with climate change	DELANDMETER, Mathieu
9:30 AM	[337] Calibrating CERES-Barley for ideotyping climate-smart spring barley under German growing environments	MEZIANE, Asmae
9:45 AM	[274] Rye in a changing climate: insights from crop modelling in key northern hemisphere regions utilizing DSSAT-CSM-CERES-Rye	Mr SHAWON, Ashifur Rahman
10:00 AM	[191] Soil fertility change outweighs climate change impact on maize yield in sub-Saharan Africa, a multi-model study	COUËDEL, Antoine
